  Sri Banarasi High School,Saidpur,Khagaria   79.80   2013
  Bihar Secondary Education Board.

Technical Skills

- **HTML**, **CSS**, **JAVASCRIPT**, **BOOTSTRAP**, PHP, SQL, **ANGULAR, IONIC**,**NODE.JS**, C, **JAVA**, **PYTHON**, C++, **ANDROID,DJANGO, Linux,Version Control Systems(GIT and GITHUB).**

Areas of Interests

- WEB DESIGNING
- WEB & ANDROID APP DEVELOPMENT

Projects and Internships

1. **ANGULAR CRUD APPLICATION** **:-** This is a basic CRUD (Create, Read, Update & Delete) application that stores the data on the Local Storage made available by web Browser. It is developed by Angular Framework.
2. **ANGULAR DEVLOGGER** **:-** This is just to create a To

Do List. We want to organise our daily task so to keep them remembered it is developed.

3. **ANDROID APP** :- This is the app called "Udgam 2019" which is named on our college fest "Udgam". This app provides the registration facility for various events of cultural fest which uses firebase database. I worked as a coordinator to develop this app with my colleagues. It was a nice experience to work as coordinator.

Extra Curricular Activities

● **Blogging:-** This is what I do when I am bored of everything like coding, development etc. This is my blog.

● **Content Writing:-** I have just launched a website called LearnByExample which is developed by me and my team. I am writing content for this site. The work is still going on.
